## TAKES A GLOOMY VIEW.

Erastus Wiman Says England Wants War Over Bering Sea.

The Baltimore and Ohio Completes a Gigantic Deal.

Judge Lynch Again Officiates in the Wilds of Missouri.

Terrible Mining Disaster in Colorado—Two Men Blown to Pieces and a Third Fatally Injured—Other Eastern News.

By Telegraph to The Times.

CHICAGO, March 13.—[By the Associated Press.] The well known economist and financier, Erastus Wiman, who is visiting here, talks seriously of war between England and the United States as an outcome of the Bering Sea complication. "The English government," said he in an interview, "is under tremendous pressure from Canada, which is in a mood to insist that Canadian sealers be protected and given equal rights with Americans on the high seas. Besides, the coming contest in England makes it imminent that a diversion of some kind be created to secure Tory success at the polls. It is not improbable that a vigorous foreign policy will prevail during the coming summer, in which there peace of the world may be threatened. Actual hostilities are doubtful, but many a war has sprung from less serious causes."

The threat of retaliation in the shape of the abolition of the bonding privilege, which allows goods destined to Canada to pass through the United States without paying duties, and vice versa, would be a two-edged weapon, far more hurtful to cities of the United States than to Canada. If this is the only retaliatory measure Canada has to fear, after suffering the terrible exclusion implied by the McKinley bill, it will only solidify adhesion to the British connection and strengthen her determination to keep independent of the United States."

BLOWN TO PIECES.

TWO MEN KILLED IN AN EXPLOSION IN A COLORADO MINE.

OURAY (Colo.) March 13.—A terrible explosion took place in the Revenue tunnel at Mount Sopris last night. The cause was a premature blast. Two men were killed and one wounded. The news was brought to this city late last night by a messenger who came after physicians. From what was learned of him during his brief stay, the explosion was one of the most terrible ever occurring in this district.

The men were working in the heart of the tunnel when the explosion occurred. Hook and dirt were hurled in all directions. Grant Robinson, from Howard, Mo., was torn to pieces by the shock, his head being torn off and his body blackened and bruised. The name of the other man killed is unknown. The injured man's name is Burns. There was great excitement at the mine. The drills, operated by compressed air, at so high a rate of speed, and as the rock through which the drills were boring was very hard, by the time the holes were three or four feet deep they were very hot. Then fifty pounds of powder was packed in them and it is thought it was ignited by the heat.

LATER.—The name of the second man killed is Patrick Maloney. It is thought Pat Burns will die from his injuries.

JUDGE LYNCH AGAIN.

A Young Colored Girl the Victim of Missouri Justice.

BATVILLE (Mo.) March 13.—[By the Associated Press.] The lifeless form of a colored girl was found dangling from a tree on the road near here on Saturday and identified as that of a fifteen-year-old servant of W. R. Heimer, who resides on the Greenwell place near here. The girl became offended at the actions of a colored man employed in the house, and in seeking revenge decided to put "Rough on Rats" in his coffee. She put the poison in the coffee intended for the family meal and nine persons drank the concoction, all nearly dying. The girl acknowledged that she intended to kill the colored man and said she did not care particularly who else suffered.

On Friday night a guard started to take her to jail at this place, but fell in with a masked party who relieved them of the girl and strung her up to a tree at the first crossing.

BIG RAILWAY DEAL.

The Baltimore and Ohio Acquiring Southern Connections.

ATLANTA (Ga.) March 13.—[By the Associated Press.] It is said here on undoubted authority that a deal has been perfected by which the Baltimore and Ohio secures control of the Richmond Terminal properties, the Richmond and Danville system, with its leased lines and the East Tennessee system. John Inman is said to have engineered the matter. The Baltimore and Ohio has been buying the stock of these systems and it is said that the last purchase (made Saturday) places in its hands the whole system. The Jersey Central and Reading are included in the deal.

The Grand Duke of Hesse Dead.

BERLIN, March 13.—The Grand Duke of Hesse died this morning.

LONDON, March 13.—The news of the death of the Grand Duke of Hesse caused great grief at Windsor.

Three Children Burned to Death.

LONDON, March 13.—The residence of John Lewis at Llanelli, Wales, was destroyed by fire yesterday. Three children perished in the flames and two others were seriously injured.

Judge Lynch Presided.

OZARK (Mo.) March 13.—It is just learned here that John Bright, who killed his wife a few days ago, has been captured, tried, convicted and executed, Judge Lynch presiding.

Death of a Noted Lady.

TRENTON, March 13.—Mrs. Margaret E. Dayton, widow of the late William Dayton and mother of Ed L. Dayton, ex-minister to the Hague, died today, aged 82.

Souder's Trial Approaching.

CHICAGO, March 13.—Dr. Henry Marry Souder spent the day quietly in the county jail. It is thought his case will be called for trial tomorrow.

Fatal Family Quarrel.

WARRENSBURG (Mo.) March 13.—During a family quarrel, Joseph Emery was shot and killed by his brother Charles yesterday.

The Belgian Mine Disaster.

MASSACHUSETTS, March 13.—In the recent mine disaster 152 were killed, twenty-two injured and sixty-three rescued unharmed.

SINGULAR CASE

A TRAMP'S THREAT MAKES A GIRL BELIEVE HERSELF A RABBIT.

FREEPORT (Iowa) March 8.—[Correspondence.] A young girl was brought to this city by her father a few days ago for treatment for a most interesting and queer disease. Some months ago a tramp happened along the road near the farm of Walter Halliwell and while eating a dinner which had been given him by Mrs. Halliwell he noticed a little girl there. She seemed to be afraid of him, and in a spirit of fun he told her that if she did not stop eyeing him so he would turn her into a rabbit which was always afraid of everything. This frightened the girl still more, and her fright became so great that finally she fell in a convulsion. The girl was of a weakly nature and the convulsions came near killing her. When she recovered it was noticed that she had received a great shock and that her mind was impaired. She imagined that she was a rabbit and seemed afraid of everyone, even the members of her own family.

She got so that she refused to talk and would shun every person who came near her. She would whimper and cry and at last her case became so pitiable that her father determined to bring her to this city for treatment. When seen at Dr. Crawford's office she gave every evidence of alarm at the approach of every one and her whole appearance showed that she was laboring under some great mental strain. Her eyes and face showed that she felt some change in her, and while it may seem strange to say, yet they had the appearance of the eyes of a rabbit. There was that constant startled look in them as if she were hunted, and when a dog suddenly barked near the office she almost went into convulsions at the sound. The physicians say that she can possibly be cured, but it is very doubtful.

RESORTED TO RIFLES.

OKLAHOMA (Oklahoma) March 13.—At Chandler yesterday, James Zule and George Barton quarreled, and attempted to use rifles as means of arbitration; Zule is dead and Barton will die.

PARTING BANQUET TO REID.

PARIS, March 13.—American artists here expect to give a grand farewell banquet to Minister Reid on the eve of his departure for the United States.

Used in Millions of Homes—40 Years the Standard

## IN THE BEAUTIFUL San Gabriel Valley.

RICHARD GARVEY'S SUBDIVISION

Of about 1000 acres of his Famous Home Rancho in the San Gabriel Valley. This magnificent body of land lies within 5 miles of the city of Los Angeles, on the gently sloping foothills bounding the beautiful valley of the San Gabriel on the south. The entire tract is now and has for years been

UNDER CULTIVATION

and is susceptible of producing the Finest Oranges, Lemons, Limes and any of the deciduous fruits. There is also a limited acreage of Choice Alfalfa Land; also a small amount suitable for Walnuts.

A Full Water Right Conveyed to Each Purchaser.

The unusual frosts and winds of the past season left no mark of damage in this favored locality. See it now and be convinced.

The temperature as observed for a number of years shows several degrees warmer in winter and cooler in summer than any other part of the valley.

We are authorized by the owner to offer Choice of the 10 and 20 acre plots of the subdivision for the present at the flat price of \$200 per Acre.

For further information call on or address:

SCOTT & WHITAKER, AGTS.

Los Angeles Theater Building,

229 South Spring Street.

Or RICHARD GARVEY, Owner,

San Gabriel, Cal.

Electricity in Zig-zag Wires.

[Electricity.] Kirchoff, in his paper, "Motion of Electricity in Wires," first shown in 1857 that, under certain conditions, electricity moves in a thin wire according to the laws of wave motion and with a velocity about equal to that of light. This, however, is only true of straight wires stretched in the air. He found that if the wire be in a zig-zag form, or wound in a spiral, the velocity of propagation exceeded that of light. Prof. J. Stephen has recently been studying the same question using the method of Hertz, namely, of producing stationary waves and comparing the length of the waves in straight wires with those in circuits.

He finds them longer in the latter

than in the former, and the increased

velocity of propagation in the latter over light much greater than that given by Kirchoff or Wheatstone, who has also investigated the subject.

THE TALK OF THE TOWN

## IS OUR GREAT SALE IN HATS

Our variety in styles is so large that we were compelled to make an additional display and vacate our Furnishing Window and use it for Men's Soft Hats. We have in our stock now Every New Shape, Every New Style,

## SPORTING NEWS.

The Los Angeles League Baseball Players.

Arrival of Four of the Heavy-weights of the Team.

Coming Bench Show of the Southern California Club.

Over 100 Official and 150 Special Prizes—Much Interest Being Manifested—Fugitive—Turf Gossip—Sporting Notes.

Four of the huskiest-looking men that ever came into Los Angeles on the same train arrived yesterday afternoon and began making inquiries about Manager Glenalvin. They were Catcher Emmett Rogers, Pitcher Jack Roach and Fielders Rasty Wright and George Tredway, of the Los Angeles ball club. Wright and Tredway are among the biggest men in the business, and the aggregate weight of the four players is 766 pounds. Although they are not in condition they appear to be very active, and with two weeks' training and suit-bathing at San Diego they ought to be able to give a good account of themselves here on the opening day. They go to San Diego this morning.

## THE BENCH SHOW.

The fourth annual bench show of the Southern California Kennel Club promises to eclipse all previous efforts of that enterprising organization, judging from the vigorous manner in which its officers are already bestirring themselves to insure its success.

The club's premium list, which has just been issued, contains 108 official and about 150 special prizes. The show will be held at Hazard's Pavilion this year, on April 20 to 23, inclusive.

The following is the list of the officers of the club, which was organized on May 1, 1889, and elected a member of the American Kennel Club on September 18 of the same year: President, J. F. Holbrook; vice-presidents, Dr. Kannion, T. Bright, J. H. Kefler, Robert Vandervoort, John Schumacher; secretary, C. A. Summer, once, No. 107 Broadway; treasurer, E. K. Benchley; board of directors, a committee, J. F. Holbrook, T. S. Bright, C. A. Summer, J. H. Kefler, E. K. Benchley, F. W. Ingalls, T. S. Case, A. P. Robinson, R. S. McKnight, Dr. Weldon, John Schumacher; superintendent, H. W. Wilson, office at Tufts-Ylmon Arms Co., No. 134 South Spring street; veterinary surgeon, Dr. I. Cowper; judge of all classes, James Mortimer, of Westminister Kennel Club, New York.

When it is considered that last year there were only forty-six special prizes offered by the association, it must readily be seen that interest in the bench show and the canine beauties to be exhibited there is increasing. Owners of good dogs should apply to the secretary at once for a premium list, which is pamphlet form, and contains full particulars of all matters relating to the show.

## A PROPOSED CHESS CLUB.

Some of the devotees of the royal game are agitating the establishment of a first-class chess club in this city, and the movement bids fair to result in something practical. The lack of such an institution is more noticeable to our winter visitors than is generally supposed, since many of them, who have heretofore spent their winters in the South, have always found some advantages of this character. New Orleans, for instance, has a club which is one of the most influential bodies in the country, and an indication of how highly esteemed membership in this organization is held it may be stated that for the last ten years the list of applicants has footed up over 300, the membership being limited and applications being taken up as vacancies occur. There is no reason why Los Angeles should not have a Chess, Checker and Whist Club that would be a credit to the city. Los Angeles has several players that would rank high among the best in the country. The movement is deserving of every encouragement.

## PUGILISTIC.

On Saturday night next the members of the Pastime Club will entertain their friends with a boxing exhibition, which should prove a drawing card to all lovers of the manly art. The programme includes, among other events, a four-round set-to between William Child, the colored middle-weight, who is to meet La Blanche again on the 24th inst., and Henry Peppers; but the event of the evening will be the contest between Billy Maber, the Australian light-weight champion, and Frank Purcell, a welter-weight from Salt Lake. The former has agreed, for \$100 a side and part of the gate receipts, to stop Purcell within ten rounds.

## Sparring Notes.

Sunol will be taken in hand by Charles Marvin about May 1 at the Meadville, Pa., kite track.

Locatata, the winner of last year's Suburban, is ailing in his fore ankles, and his chances this year do not look rosy.

D. Lyman of Lamanda Park has bred his St. Bernard bitch Flora to J. H. Martin's Republican, at San Francisco recently.

Galindo, the gray California colt, by Gano-Freda, is second in the betting list for the Chicago American Derby, Azra being the favorite at 8 to 1.

The Ondale Stable of Chicago has lost the good three-year-old colt, Terra Firma, by Harry O'Farrell-Bomida. He died a few days ago of pneumonia at Memphis. He was an American Derby candidate.

G. Valensin is said to have refused \$100,000 for his great stallion, Sidney, 2:19½, last week. This is, with the exception of the price paid for Arion, the largest sum offered and refused for a California sire.

An Augustin, a French wrestler, and Henry Numan of Germany are new aspirants for athletic heroes and have challenged Sebastian Miller and Ernest Roeder to wrestle Greco-Roman style for \$500 to \$1000 a side.

Morbars, 2:18½, will not go to Kentucky this season, as was expected. He did not recover from the spell of pneumonia he had at Stockton as quickly as his owners thought he would, and will be kept in California.

With Motto, in the Fort Hamilton handicap at ninety pounds, and Fairy and Sir Roy in the principal handicap and stake races, L. J. Rose should carry off some of the money at the Morris Park meeting of the New York Jockey Club this summer.

The contest for the Selby medal will take place at Oakland shooting park on Sunday the 27th inst. It has been definitely settled that a team will be chosen from the Stockton Gun Club to attempt to wrest the team trophy from Southern California.

Prof. Pete Maher, whose animated personal discussion with the Hon. Bob Simmons at New Orleans the other night resulted in a great deal of money changing hands, offers a most astounding

and unheard-of reason for his defeat. He says the Hon. Bob is the better man.—[Chicago Tribune.]

There are now eight Australian stallions in service in this State. Daretin, Sir Moltred and Maxim at Rancho del Paso; The Hook at Santa Anita; Plenty at Mrs. Wolfkill's; Suawar at McDonough Farm, near Palo Alto; Oak Cake at Col. H. L. Thornton's, and Trade Wind at San Simeon.

O. P. Keyes, the well-known horseman, who has been confined to his bed for the past six weeks, died at the Sisters' Hospital at 11:40 o'clock yesterday morning of Bright's disease. The veteran sportsman, who had charge of "Rocky" Baldwin's stables last year, was very popular and his tall form will be missed from the track by friends innumerable.

A dark horse has made an appearance in the meetings on the English Derby, which will be run on June 1 next. This is the Collar, a bay colt, by St. Simon, out of Staffa, by Scottish Chief. He is the property of the Duke of Portland and has never yet sported silk. He is well spoken of at Newmarket, and has been backed down to 25 to 1, which fact speaks for itself.

Martin G. Aguirre is the proud owner of a suckling filly which is one of the best bred youngsters in Southern California, and of whom he has good reason to expect great things in the future. The filly is by the champion four-year-old, McKinney, 2:12½, out of the Stamford brood mare Ala, whose dam, Molly, has produced Geronomo and Jim Leach, both of whom hold low records.

Fred Johnston, the feather-weight champion of England, is one of the best men ever seen at his weight in the ring since Peter Morris, the famous English feather-weight, flourished in the '60s. For nearly a year he has tried hard to arrange a match with George Dixon, the colored phenomenon. A bout between Dixon and Johnston would create a sensation in prizefighting circles, and it will be arranged if the California Athletic Club would offer a purse of \$5000 for the rival champions to fight for.

## TURF GOSSIP.

Salado's Weekly Talk on Horses and Horsemanship.

The controversy between J. Willets of Santa Ana, Orange county, and C. A. Durfee of Los Angeles, started by friends of the former, has ended in nothing being done. At least no match will be made between the pacer Silkwood, 2:18, and McKinney, 2:12½. The challenge from Mr. Willets was, it seems, forced upon him by supposed friends at his home. The following letter from the owner of McKinney is self-explanatory:

**Friend Salado:** I like Silkwood, and wanted to break a mare to him this spring, but he is too big. I bought a small mare by him, which I shall not do again. I have challenged him for a race for \$3000, and it goes with me. I have not heard from him. McKinney has already served thirty-two mares, so you can see that I do not have to run down Silkwood or old, and he might so improve as to pace in 2:12 or better. McKinney in all probability will lower his record this season.

The rumor comes from Lompoc, in Santa Barbara county, that Mr. Rucker is training a very fast horse. As neither the name or breeding is given Mr. Rucker must think that he has a cinch on the boys.

George Sherman's black gelding, Midnight, by Accident, dam by Newey, a son of Lexington, is taking kindly to his work on the Los Angeles track, under the management of Davis Call.

L. E. Fisher of Santa Barbara owns a very handsome seal brown stallion, San Miguel, 5:447, sired by Enchanted, 4:8, dam Octavia, by Satellite, 2:50. He is 6 years old and is now being handled for a record this summer. From his breeding (inbred 'Hambletonian' 10) and his way of going Mac should give him a low record.

So the latest declaration in the great Suburban is Pierre Lorillard's famous filly, La Tosca! With such great horses as Kingston, Longstreet, La Tosca, etc., the interest in this great race might fall off somewhat. The little sway-backed Tenny will be the favorite.

From the colt stakes entries to the Pacific Coast Trotting Horse Breeders' Association we are glad to note that Los Angeles is represented in the stallion race, free for all, purse \$2000, by so reliable a stallion as McKinney, 2:12½. He will meet the newest colt of the last ten years the list of applicants has footed up over 300, the membership being limited and applications being taken up as vacancies occur. There is no reason why Los Angeles should not have a Chess, Checker and Whist Club that would be a credit to the city. Los Angeles has several players that would rank high among the best in the country. The movement is deserving of every encouragement.

## A PROPOSED CHESS CLUB.

Some of the devotees of the royal game are agitating the establishment of a first-class chess club in this city, and the movement bids fair to result in something practical. The lack of such an institution is more noticeable to our winter visitors than is generally supposed, since many of them, who have heretofore spent their winters in the South, have always found some advantages of this character. # SOUTHERN CALIFORNIA

PASADENA.

**A Town Blessed with a Good Fire Department.**

Lively Practice Drill by the Boys on Saturday Evening.

El Molino at the Setting of the Sun —A Pretty Picture.

Characteristics of a Sunday in March—The News in Brief—Personal Notes of Interest—Co's & Drill.

[Branch office, No. 50 East Colorado street; where news, advertisements and orders for THE TIMES are received.]

If there is another town of its size, or double its size, that can turn out a better fire department than Pasadena let that town stand up and deliver. The department is composed of active and competent men, who are interested in their work, who work well together and who always may be counted upon in an emergency. They are never caught napping, and when the alarm sounds every man is at his post. In addition there is a commodious and well-equipped engine-house, the best of apparatus, well-trained and speedy horses, the most improved and approved of the many electric fire alarm systems and an adequate water supply which can be reached by hose and hydrant, well located.

All of the above facts were forcibly illustrated Saturday evening, when Councilman Clarke, who is a member of the Committee on Fire and Water, turned in an alarm from box No. 14, at the corner of Marengo avenue and Colorado street, for the simple purpose of testing the efficiency of the department. Before the engine-house bell had rung, the apparatus was on the street, and hardly two minutes had elapsed before the entire department was at the scene of action and inside of another minute a strong stream of water was playing, and a high ladder had been stationed against the Brockway Building, the residence of the councilman.

The department, of course, had no information that an alarm would be sounded, and the showing they made on this, as well as all other previous occasions, is highly creditable.

EL MOLINO.

Never until a few days ago did the writer chance upon the old mill—El Molino, south-east of town. It had been long in the imagination, a scene more than an old adobe ruin, with little resemblance of a mill. A surprise was in waiting when the quaint but symmetrical half-house, half-mill, nestling in the foreground of the deeply wooded cañon, came into view. The walls are massive, the upper story ornamented with latice-work, and the lower story half basement, built out from the brow of the hill and with two corners extending into queer octagonal-shaped rooms with conical roofs. The windows are barred, the arched doors bolted, forbidding entry. As we peep through the crevices and catch glimpses of musty vaults and deserted rooms.

The old Padres had an eye to utility as well as beauty when they planted their houses with never-falling streams furnished by abundant supplies for irrigating their orchards and vineyards. The old mill is a mere shell, with the crimson pomegranate in the foreground of the deeply wooded cañon, came into view. The walls are massive, the upper story ornamented with latice-work, and the lower story half basement, built out from the brow of the hill and with two corners extending into queer octagonal-shaped rooms with conical roofs. The windows are barred, the arched doors bolted, forbidding entry. As we peep through the crevices and catch glimpses of musty vaults and deserted rooms.

The old Padres had an eye to utility as well as beauty when they planted their houses with never-falling streams furnished by abundant supplies for irrigating their orchards and vineyards.

The Tufts-Lyons team opened their running by McAleer taking first on balls, and passing second to third on overthrows to first, and home on Darby's fly to right field. Darby reached first on fly to right field, stole second and third and went home on Long's liner to pitcher, and out at first. Leland reached first on a wild throw, and was safe hit to left field, stole second, and Meford was thrown out at first from the pitcher's box.

In the fifth inning McAleer sent the sphere in a beautiful curve to center field, but Adams stood under it as it descended from the clouds. Up to the ninth inning he was safe hit to second to face off against Lyons team. The sugar-beet factory boys realized that they must play hard, and with a significant smile Koener led off with a sacrifice hit which was fumbled by Colby, giving the sacrifice man the first bag. Adams made my boy fly over to the head of the pitcher, and caused Koener to retire from second. He stole second and went home on Peters' fly to right field, tying the score. Peters went to second on throw to the home plate to end the game. The ball was called on Peters' grounder to short and threw to first, leading in the score by one tally. The cheers from the crowd were almost deafening when the home boys forged ahead. Wetzel went to first base on a ground, a shortstop, stole second, and then while whites and negroes constructed to utilizing its water power. A modern aqueduct takes the place of the old water troughs running back into the cañon. A water ram spouts up defiantly where once the mill stood.

The hillside is covered with flowers, the ferns and violet are mirrored in the stream and the morning glories, which deck the walls, smile upon us. The vineyards are putting forth their buds and the date palm is laden with fruit. The orange tree in bloom, with blossoms covered with sprigs of coral; the hollyhock twice with the crimson pomegranate.

Yesterday was a beautiful day in Anaheim. So was the ten-inning game of baseball between the Tufts-Lyons Arms Company nine of Los Angeles and the Anaheim team. Fully 400 people from Anaheim, Santa Ana and surrounding towns assembled at the grounds near the Del Campo Hotel shortly after 12 o'clock. The game was called at 1:10 o'clock, with Anaheim's first inning. Meford and Kroner failed to reach first, but McGoffin reached the bag by a hot liner to right field, and afterward went home on Peters' muffed fly to third. Mallett was thrown out at first from the pitcher's box.

Peters went to second on throw to the home plate to end the game. The ball was called on Peters' grounder to short and threw to first, leading in the score by one tally. The cheers from the crowd were almost deafening when the home boys forged ahead. Wetzel went to first base on a ground, a shortstop, stole second, and then while whites and negroes constructed to utilizing its water power. A modern aqueduct takes the place of the old water troughs running back into the cañon. A water ram spouts up defiantly where once the mill stood.

Despite the morning fog, which the sun completely conquered, yesterday could not be construed other than a lovely Sabbath day. Church-goers thronged the sidewalks and teams lined the streets for squares awaiting the close of the services. A stroll from one to another of the sanctuaries was not but call up a contrast between a Sunday of the past and a Sunday of the present.

El Molino is a half-deserted streets, nature covered with a snowy shroud, and ivy-covered walls—all symbols of death and decay. Here, all is a glorious resurrection day. All nature is alive and decked in spring attire. Bells ring from the fine-wrought towers, and the bells around our churches are brilliant with plants and flowers of every hue. Inside the decorations are equally varied and beautiful. One of the pulpit platforms was massed with flowers with Indian baskets, gourds and shells. Another shows all in white, gourds and shells; baskets of sweet-scented Daphne grass another, while roses and violets are utilized everywhere.

This variety of flowers for altar decoration is a sight to see. The floral boxes so costly in the East are used by the basket-weavers, let such one mind the manner of his mind and he will be convinced that we have our Talmages and our Spurgeons and our Beechers, and that they preach every week to crowded congregations.

A Sunday in Pasadena is a study in itself.

WHAT THEY SAY.

Decker says that if all his men had been there his nine would have licked the Atlanta man who knows says we are going to have a mountain railroad.

A politician says the candidates named at the convention will have a walkover on April 11.

The ordinance says that beer without regulation is bad.

An Eastern man says we have a bang-up fire department.

A present city official who will soon return from public life here says that some day he will be the political boss of Cucamonga.

G. R. Ross says he can't fast at a camp meeting than an army can eat.

An unprejudiced observer says that George Schmidt is the handsomest member of Co. B.

The bunch says that the sewer will soon enter into the rear farm.

Rev. Harris says that the prohibitionists want to move lively and oppose the nomination last Thursday night.

SHE HAS THREE ADMIRERS.

Every morning, Sundays excepted—so the story runs—a young lady of most prepossessing appearance boards a Terminal train here for Los Angeles. She seats herself where two seats face each other to provide accommodation for three admirers who meet the train at different places en route. The first man on selects a seat by the young lady's side. This is recognised as the post of honor, and the other two admirers who ride backward tacitly admit that they are left. The rivalry between the men has assumed such proportions that frequent out-of-the-way walks lead to a station near Pasadena in order to secure the coveted seat at the side of his object of adoration. Something serious may be expected to result at almost any time.

REV. MR. HARRIS ARROUSED.

At the Baptist Church yesterday morning Rev. Mr. Harris, as a prelude to his sermon, made some forcible remarks pertaining to the temperance questions bearing on the coming city election. He urged united concerted effort on the part of the Prohibitionists to defeat what he intimates is a saloon ticket.

ABSOLUTELY PURE

## TALKS WITH CITIZENS.

The National Guard.—"I have just visited the northern portion of the State," said Col. R. J. Northam, who has recently been appointed on the Governor's staff, "and from what I have seen I am confident that the National Guard was never in better condition than it is at the present time. The war talk during the past few months has braced the boys up in good shape, and they are taking a great deal of interest in military affairs. They are all crazy for war, and I am sure we can turn out an army that would astonish some of our Eastern brothers."

*Must Have a Hotel.*—"Los Angeles is sadly in need of a big hotel," remarked Hon. Dan Freeman, "and I hope the present scheme to build one where the Spring street school building now stands will not fall through. There is not a finer site in the city. It would give a main entrance from both Broadway and Spring streets and is just near enough to the business portion of the city. We lose thousands of tourists every year simply because we have no hotel on grand plan, for when people come with their pockets full of money come here for pleasure they want the best in the land. Coronado has had from 700 to 1500 boarders all winter."

A City Physician.—"Officers from outside cities and especially those from the East who visit the police station," said Clerk Cattle, "cannot understand why a city of the size of Los Angeles cannot afford to keep a physician at the station all the time. When they are told that the work is now done in the receiving hospital by Drs. Murphy and Bryant for sweet charity's sake they throw up their hands in horror and cannot understand what kind of city this is. Every city in the East of any importance has a regular physician in the police station all the time. He has his room there and sleeps in it every night. Hardly a week passes that a doctor is not needed on a moment's notice, but under the present arrangement we have to telephone or send out and sometimes it takes an hour or two to get the doctor. A number of lives have probably been lost simply because medical aid could not be secured as soon as the wounded man was brought in."

*Eastbound Travel.*—"The passenger travel from Southern California to the East is not as good this spring as it was last ticket sales falling considerably below those of the same period last year," said Fred W. Thompson, passenger agent of the Rock Island route. "The reason for this, I think, is owing to the fact that a great many people are putting off their Eastern trip until the World's Fair is open. We have inquiries every day about the ticket rates to Chicago for the World's Fair, and of course nobody knows now what the rate will be."

*Mozart's Ahead!*

In MILITARY—Arrival of New Goods—Display of Flowers, Novelties, Etc.

More millinery goods are shown at Mozart's than any two stores in this city. Hundreds of different styles of hats, many imported straw, all of which will be sold at new York prices. As a leader we offer a nice hat for a Miss at \$1.50, and a trimmed sailor for 15c. Ladies' large brim sun hats, 10c. In flowers a carload have been received by us. The new English and French flowers at a small advance of cost. Ladies' wear at 45c. A fine rose monture of rosebuds, leaves and grasses, \$2. Many fastidious ladies will like this article. We have a new line of millinery in far lower in price than ever before. Mozart's offers fine goods at low prices, and a special line of hats, together, for 50c. In Misses' and ladies' sizes, will put you to see all goods and services, and will be sure to be popular at Mozart's, as unscrupulous persons patronize our store. All styles of spring bonnets and hats, in various frames, etc. New spring goods now ready at 10c.

*SHILOH'S COUGH and Consumption*

Cure is sold by us on a guarantee. It cures consumption. Wholesale by Haas Baruch & Co., and all retail druggists.

*Los Angeles, Feb. 11, 1892.*

After suffering for years with stomach trouble, I was led to induce to try Dr. Wong Hing, of San Francisco. He examined me and pronounced my trouble tumor in the stomach. After a few days of treatment during which time I felt greatly relieved and better, he pronounced me entirely cured, and from that time to the present, which is four months, I have not had the least trouble.

I am able to eat many things which formerly would distress me very much, and therefore feel that I can do nothing else than to recommend the doctor to all who can be induced to try him. I hereby extend my thanks to Dr. Wong Hing for his services to me.

CHARLES THORNE,

No. 217 South Bonnie Brae street.

Los Angeles, Cal.

*CROUP, WHOOPING COUGH and Bronchitis*

immediately relieved by Shiloh's Cure. Wholesale by Haas, Baruch & Co., and all retail druggists.

*JOHN BECKWITH & SON, No. 306*

North Main street, the druggists, take especial pleasure in supplying his customers with the best medicines obtainable. Among the specialties kept upon his shelves may be mentioned Chamberlain's Cough Remedy, a favorite during the winter months, account of its great success in curing colds. This is not only a cure, but will loosen a severe cold so quickly, or so promptly relieve the lungs. Then it cures the bronchitis, and the pneumonia. It is pleasant and safe to take, and fully worthy of its popularity.

*A Favorable Outlook.*—"The outlook for Southern California is extremely favorable," said President J. M. C. Marble, of the National Bank of California; "investors show the utmost confidence in the future of this section and of this city especially. Los Angeles is bound to be a great city and nothing can prevent it, and California's greatness will continue to increase. It puzzles me to know where room will be found for all the people that will come out here in the next few years, though of course we will continue reclaiming lands and finding room for those who care to enter into the spirit of the country's development."

*Two Pounds of Nuggets.*—"When I was down at Walters, on the Yuma division, the other day," said W. J. Hamilton, chief train dispatcher of the Southern Pacific, "I saw two men there who had been prospecting all winter in the mountains back of that point, and they had exactly two pounds of gold nuggets to show for their work. These lumps of gold varied in size from that of a birdshot to the end of my thumb, and it looked real good."

*On a Summer Resort.*—"I can't help thinking that the Beach people are making a mistake about their town," said G. B. Leighton, of the Terminal road.

"They have ambitions to attain commercial importance, want a wharf and a boat line and all that, and I think their hopes in that direction are vain. What they should do is to make their place attractive for visitors, get up a brass band and do other things to entertain crowds of summer visitors. They have a magnificent beach and could have many thousands more visitors if they tried to attract them and provide for their entertainment."

*PERSONALS.*

Mr. Born and A. Lamm of Chicago are at the Nadeau.

Mr. Frank Moffatt of Oakland is a guest at the Nadeau, accompanied by his son, Master Jefferson.

Mr. Charles Davis and wife and J. D. Prince, of the Emma Juin Opera Company, are in the city. Mr. Davis is the business manager of the company and Mr. Prince the advance representative.

Miss Louis Randolph Britton and Mrs. William Childs Read, representing the Irrigation Association, are here for a short afternoon from San Francisco. The ladies are from the main office of the publication in Salt Lake and are making a tour of the Coast writing up the irrigation interests. They will be in the city several days and make their headquarters at the Western.

Fresno has captured a granite-eating bird which was playing mischief to the walls of the courthouse. It is a New Zealand native and a species of the woodpecker family. Its bill is very hard, being tipped with iridium, while its feet are of a round disc and no claws, and can walk on the ceiling like a fly.
